

The perfect solution for all your power needs.

Cruise carefree with Westerbeke power at your fingertips.

The 20.0BED Westerbeke, a flawlessly smooth, quiet, compact diesel generator. This state-of-the-art generator easily provides all your shipboard power needs, including electric ranges, microwave ovens, air conditioners, refrigerators, TVs, hair dryers, vacuum cleaners and other small appliances and power tools.

Powerful, lightweight, economical to operate, and above all, reliable. Specially engineered to operate in a hostile marine environment, and built by Westerbeke using experience gained in supplying generators to the United States Navy and Coast Guard as well as commercial vessels and pleasure craft. Along with other features, these generators are designed to run at 1800 RPM for greater longevity. They are equipped with simple control systems rather than troublesome relays or solid state components and are fresh-water-cooled to operate at optimum temperature levels.

Easy to install, easy to service (one side service), and easily field convertible to either 50 or 60 Hertz AC output.

Westerbeke products are supported by a worldwide network of master distributors and dealers providing parts, service and technical support.

It is to your advantage to select a generator made by Westerbeke, world leaders, the people who pioneered the new truly "quiet breed" of generators in the 1980's. Over 50 years of marine experience go into these products.

And you can be sure that Westerbeke will continue to bring innovation to its products in the future.
