

Three gasoline marine engines...from WESTERBEKE

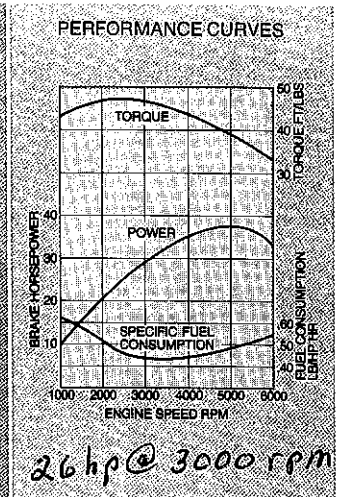

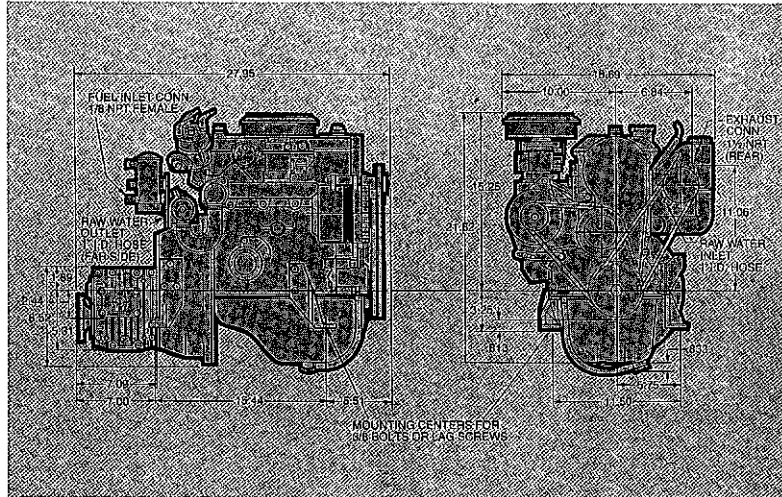

26gx

Power for Westerbeke Model 26gx Gasoline Marine Engine is provided by a modern three cylinder overhead cam engine that features high combustion efficiency, low fuel consumption and vibration free running. Model 26gx has solid mounts on 11½" centers to fit ATOMIC FOUR beds.

Specifications

Engine Type 3 Cyl, 4 Cycle
 Displacement 60.6 C.I.D.
 Compression Ratio 9.5
 Fuel Unleaded Regular Gasoline
 Block Cast Iron
 Cylinder Head Aluminum
 Angled Valves In Multisphere Head

Main Bearings Four
 Carburetor Down Draft Type with USCG Approved Flame Arrestor
 Starter 12 Volt Neg. Grd.
 Battery Charging 35 Amp. Alternator
 Cooling System Fresh Water thru Heat Exchanger
 Weight 275 lbs.

Power for Westerbeke Model 26g Gasoline Marine Engine is provided by a modern three cylinder overhead cam engine that features high combustion efficiency, low fuel consumption and vibration free running.

Specifications

Engine Type 3 Cyl, 4 Cycle
 Displacement 60.6 C.I.D.
 Compression Ratio 9.5
 Fuel Unleaded Regular Gasoline
 Block Cast Iron
 Cylinder Head Aluminum
 Angled Valves In Multisphere Head

Main Bearings Four
 Carburetor Down Draft Type with USCG Approved Flame Arrestor
 Starter 12 Volt Neg. Grd.
 Battery Charging 35 Amp. Alternator
 Cooling System Fresh Water thru Heat Exchanger
 Weight 275 lbs.

STANDARD EQUIPMENT

- Electric Fuel Lift Pump
- High Water Temperature Alarm
- Low Oil Pressure Alarm
- Vibration Isolator Mounts
- Down Draft Carburetor
- Flame Arrestor (USCG approved)
- Water Injected Exhaust Elbow
- Fresh Water Cooling
- Coolant Recovery Tank
- 51 Amp. Alternator
- Engine Prewired with Single 8 Pin Connector
- Lube Oil Drain Hose
- Operator's Manual

OPTIONAL EQUIPMENT

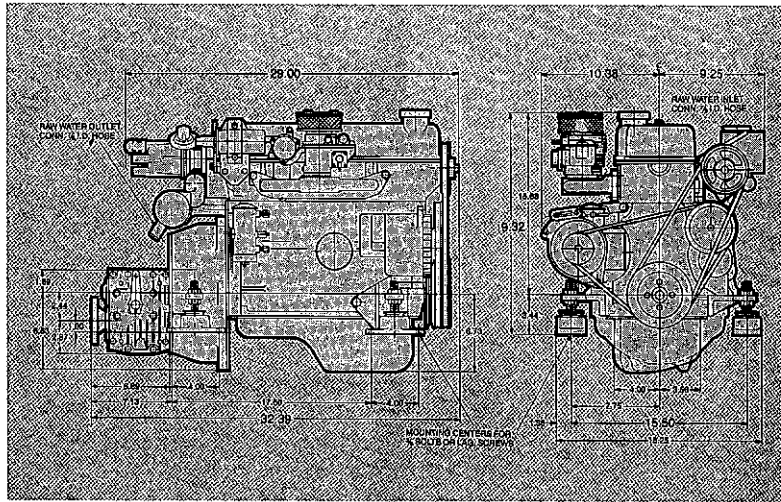

- Instrument Panel with 8 Pin Connector
- 15' Cable with Connectors
- Spare Parts Kit
- Hydro-Hush Exhaust Silencer System
- Technical Manual

41g

From its overhead cam and rocker assembly to its rugged five main bearing crankshaft, our Model 41g Marine Engine is as modern as tomorrow.

PERFORMANCE CURVES

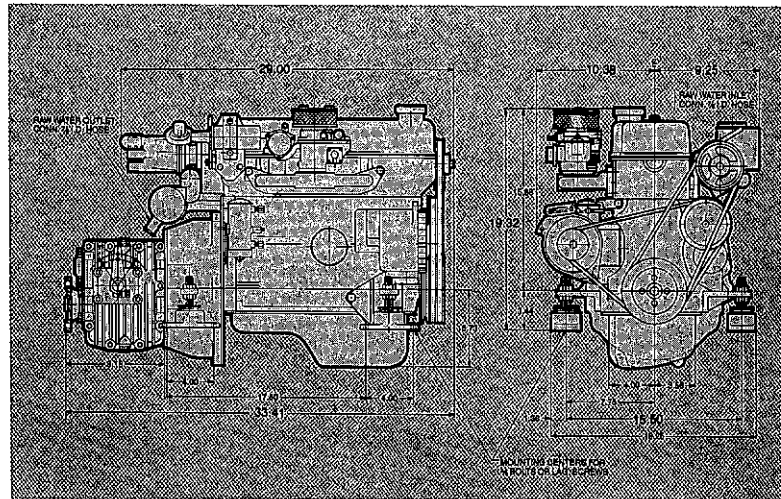

Specifications

Engine Type 4 Cyl, 4 Cycle
 Displacement 65 C.I.D.
 Compression Ratio 9.2:1
 Fuel Unleaded Regular Gasoline
 Block Cast Iron
 Cylinder Head Aluminum
 Angled Valves In Multisphere Head
 Main Bearings Five

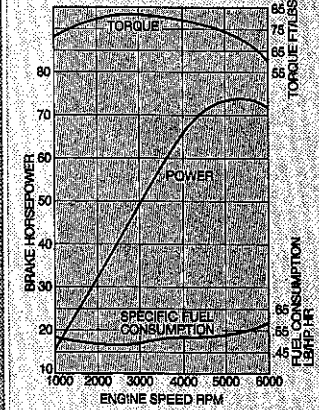

Carburetor Down Draft with USCG Approved
 Flame Arrestor
 Ignition System Electronic
 Distributor Horizontal, to reduce height
 Starter 12 Volt Neg. Grd.
 Battery Charging 51 Amp. Alternator
 Weight 348 lbs.

70g

From its overhead cam and rocker assembly to its rugged five main bearing crankshaft, our Model 70g Marine Engine is as modern as can be.

PERFORMANCE CURVES

Specifications

Engine Type 4 Cyl, 4 Cycle
 Displacement 91 C.I.D.
 Compression Ratio 9.2:1
 Fuel Unleaded Regular Gasoline
 Block Cast Iron
 Cylinder Head Aluminum
 Angled Valves In Multisphere Head
 Main Bearings Five

Carburetor Down Draft with USCG Approved
 Flame Arrestor
 Ignition System Electronic
 Distributor Horizontal, to reduce height
 Starter 12 Volt Neg. Grd.
 Battery Charging 51 Amp. Alternator
 Weight 356 lbs.

STANDARD EQUIPMENT

- Electric Fuel Lift Pump
- High Water Temperature Alarm
- Low Oil Pressure Alarm
- Vibration Isolator Mounts
- Down Draft Carburetor
- Flame Arrestor (USCG approved)
- Water Injected Exhaust Elbow
- Fresh Water Cooling
- Coolant Recovery Tank
- 51 Amp. Alternator
- Engine Prewired with Single 8 Pin Connector
- Lube Oil Drain Hose
- Operator's Manual
